-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 it is unclear if the "said housing" and the said housing member" are the same structure. These limitations appear throughout the claims making the claims indefinite.

Claim 10 recites the limitation "said base housing" in line 3. There is insufficient antecedent basis for this limitation in the claim.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Koenig (US 5,884,531).

Koenig discloses an operator cable-housing member assembly comprising: a generally cylindrical opening defined in said housing (34) extending into a space defined in said housing member; a sleeve (38) having one end extending into said generally

cylindrical opening and having a flange (36), said sleeve having said cable (10) secured to a protruding other end of said sleeve (see Fig 3); said sleeve having an elastomeric isolator (39) substantially enclosing said one end of said sleeve (see Fig 3), said isolator received in said generally cylindrical opening and compressed against one or more surfaces defined therein (see Fig 3); said operating cable including a core wire (14) movable in an outer case (12), said outer case secured within said protruding end of said sleeve (see Fig 3), said core wire extending completely through an opening in said sleeve and said isolator having a reduced diameter (see Fig 3) to pass into said housing interior space (see Fig 3), a snap cap (33), said housing member has a partially spherical seat (34s), a swivel tube (18) and a slider rod (16).

### ***Conclusion***
